OVERALL MECHANICS -The Student Council Scrapbook is both the container and contents. -Evidence of the projects or activities is priority over the quality of artwork. Artwork and design should frame the activities not supplement in lieu of project or activity evidence. -Student Council Scrapbooks should be evaluated as stand-alone pieces for overall excellence, not against each other. Scrapbooks are not ranked and several may qualify for Superior or Excellent ratings. -When considering the categories below, consider the thoroughness, organization, and creative expression of the individual Student Council Scrapbook and consider that many council officers and members put a lot of time and thought in creating these scrapbooks. Each judge will offer specific comments and constructive feedback in helping out the councils excel and evaluate going forward.	Points Possible	Points Awarded
